Program Review

Faculty, staff, and administration are required to participate in the program review process as a means to review and strengthen CCCC programs of study to better serve students. Program review also provides a means for examining new programs for possible adoption. The Program Review Guide is located in the *Employee Resources* on the CCCC website. The Academic Dean and Curriculum Committee provide oversight of and assistance to faculty completing the program review process.

CCCC Program Review Objectives

Primary: Documented, periodic self-study of each program's performance

- Demonstrate areas of satisfactory performance
- Identify areas in need of development or revision
- Maintain and improve the quality and scope of instruction and service

Secondary: Program Planning

- Development of a program plan to include short-term and long-term goals
- Evaluation of potential programs

CCCC Program Review Process Summary:

1. Program Reviews will be completed by program faculty according to the CCCC 3-year Program Review schedule. Program Snapshots (See Program Review Guide) will be completed annually in the spring for every program.
2. A Program Review Template (See Program Review Guide) containing an outline of the required information is given by the Curriculum Committee and/or Academic Dean to the program faculty writing the review. The program faculty are to follow the template in creating a Program Review document for their program. An example of a finished program review is also given. This information is available to all program faculty at any time.
3. The program faculty obtain the appropriate data for their program from the Curriculum Committee. The data is then placed in its appropriate location in their Program Review document.
4. Once the Program Review document is completed following the format of the template, the document is sent off to a designated curriculum committee mentor for review and evaluation. The program faculty then review the comments from the mentor and make any needed changes. The Program Review document may be sent for review a second time by the mentor and/or Curriculum Committee, or many subsequent times as deemed necessary.
5. After the recommended changes are made by the program faculty, the Program Review document is submitted to the Academic Dean and the Curriculum Committee for review.
6. The final step is for the Curriculum Committee to meet as a group and discuss the Program Review document. Additional changes may be required prior to a full review. If no additional changes are needed the Curriculum Committee evaluates the program utilizing a rubric to assess the strengths and weaknesses of the program. A summary narrative of the decisions and future plans for the program are added to the document.
7. The final Program Review document is forwarded by the Curriculum Committee to the Academic Dean for signature/approval, with the Academic Dean forwarding the document to the President/Board as needed when major program changes occur (such as furlough recommendation or new program approval).

Program Review provides linkage and integration with the following processes:

- Accreditation: The Program Review process addresses requirements included in the Higher Learning Commission standards for the systematic evaluation by the institution relating to its Strategic Plan, educational planning, assessment analysis, and budget development.
- Institutional Research: Program Review is supported by research and integrates planning and evaluation aligned with the Strategic Plan.

Program Evaluation and Review (for Curriculum Committee Use Only)

Criteria	Program Exceeds Expectations	Program Meets Expectations	Program Needs Improvement	Program Does Not Meet Expectations
Sec II Enrollment	Increasing	Steady	Decreasing	Unsustainably Low
Sec III Quality of the Program as Determined from Assessment Information	The program's quality is substantial and notable.	The program's quality is substantial but could be strengthened through curricular and/or program enhancements, e.g. providing additional resources, adding or deleting courses	The program's quality could be strengthened through reconfiguration, e.g. substantial modification of the curriculum and the reorganization of faculty.	The program's quality and/or contribution to the institution is not substantial enough to justify its continuance
Sec IV Cost Effectiveness	Net Gain	Break Even	Net Loss	Unsustainable Losses
Sec IV Projected Occupational Need (Regional and State Level)	Large Need and Growth in This Area	Moderate Need	Minor or Low Need	No Clear Need for This Degree
Sec V Ability to positively impact CCCC's relationships, partnerships & alliances	Relationships are strong – benefits the overall mission of the college	Relationships, partnerships, and/or alliances could be developed to strengthen the program	Relationships, partnerships, and/or alliances need to be reconfigured in order to positively impact the college	Relationships, partnerships, and/or alliances are not positively impacting the college. The program's reduction or phase out would not adversely impact other programs.
